Wang Ching-Tang

Sendai, Japan | wang.ching-tang.s1@dc.tohoku.ac.jp | linkedin.com/in/nicolaswangg

Education

Tohoku University, Graduate School of Information Sciences — Apr 2026 - Now

- **Selected Coursework:** Computer Hardware, Algorithm Theory, Data Engineering

National Taiwan University, BS in Agricultural Chemistry — Sept 2020 – Dec 2024

- **Selected Coursework:** Multivariate Data Analysis, Advanced Compiler Design, Machine Learning, Random Signal Analysis, BioMEMS Fabrication, Practice of Semiconductor Manufacturing Tools (tsmc)

Professional Experience

Yamada Lab Researcher, Advisor: *Dr. Kazunori Yamada, Dr. Siwalee Choilek* — Apr 2026 – Now

- **Researched on early prediction for acute kidney injury in ICU patients.**
  - Disentangled AKI onset within 24h of admission from true early prediction to eliminate data leakage in MIMIC-IV benchmarking. *[jcmi'46 (Oral)]*
  - Evaluated deep learning architectures and identified urine output dynamics as key predictive drivers across multi-horizon forecast bounds. *[Findings @ ML4H'26]*

DISCO HI-TEC Intern (Semiconductor Equipment), New Taipei, Taiwan — Jun 2025 – Aug 2025

- **Semiconductor Operations:** Gained specialized knowledge in the semiconductor supply chain, analyzing technical specifications for dicing and grinding equipment essential for wafer fabrication.
- **Process Optimization:** Collaborated with Field Service Engineers to optimize equipment maintenance tracking systems, enhancing operational efficiency.

Quality Assurance Engineer Intern, 25sprout – Taipei, Taiwan — May 2024 – Dec 2024

- **Automation Engineering:** Architected End-to-End (E2E) automation testing frameworks using Javascript and Nightwatch.
- **Efficiency Improvement:** Increased test automation coverage from 50% to 75% and maintained an 80% reliability rate, significantly reducing manual regression testing time.

LEADERSHIP & COMMUNITY INVOLVEMENT

Google Developer Student Club (GDSC) NTU, Lead — Sept 2023 – June 2024

- **Community Leadership:** Led a student community focused on Google technologies; organized workshops on Cloud Computing, AI/ML, and Web Development for 100+ students.

Publications

[1] **C. T. Wang**, Y. Kazunori, C. Siwalee, "*Detection Is Not Prediction: A Leakage-Free, Multi-Horizon Benchmark for Early Prediction of KDIGO Stage 2/3 Acute Kidney Injury in ICU Patients (MIMIC-IV)*." The 46th Joint Conference on Medical Informatics (**JCMI**), 2026. *[Oral Presentation]*

[2] **C. T. Wang**, Y. Kazunori, C. Siwalee, "*Are We Forecasting Acute Kidney Injury, or Detecting It?*." Machine Learning for Health (**ML4H**), 2026. *[Findings Poster]*

Skills

Languages&Programming: Japanese (N5), English (IELTS 7.0, TOEIC 980), Mandarin (Native).
